

Crypto Trading Journal

Track Every Trade. Learn From Every Mistake. Grow Your Portfolio.

■ HOW TO USE THIS JOURNAL

Log every trade with: Date, Coin, Entry Price, Exit Price, Position Size, Stop Loss, Take Profit levels, Strategy used, Emotional state, Lesson learned. Review weekly. The patterns you find will transform your trading.

■ TRADE LOG COLUMNS

| Date | Pair | Direction | Entry | Stop Loss | TP1 | TP2 | TP3 | Size (\$) | Result (\$) | R:R | Strategy | Notes |

Fill this in for EVERY trade. No exceptions. The traders who journal outperform those who don't by 3x on average.

■ WEEKLY REVIEW TEMPLATE

Every Sunday, answer these 5 questions:

1. What was my best trade this week and WHY did it work?
2. What was my worst trade and what triggered the mistake?
3. Did I follow my trading plan on every trade? If not, why?
4. What's my win rate this week? Is it improving?
5. What ONE thing will I focus on improving next week?

■ RISK MANAGEMENT TRACKER

Track daily: Total portfolio value, Daily P&L; (\$ and %), Max position size used, Number of trades, Win rate, Average R:R ratio.

RULES: Never risk more than 2% per trade. Never have more than 3 positions open. Always set stop losses BEFORE entering.

■ MONTHLY PERFORMANCE DASHBOARD

At month end, calculate: Total return (%), Best performing coin, Worst performing coin, Average holding period, Most profitable strategy, Total fees paid, Net profit after fees.

Compare month-over-month. The trend matters more than any single month.

■ AI-POWERED REVIEW PROMPT

Paste your monthly trade log into ChatGPT with this prompt:

'Analyze my trading journal for the past month. Identify: my most profitable pattern, my most common mistake, which timeframe I trade best on, whether I'm better at longs or shorts, and give me 3 specific improvements to make next month.'

This single prompt replaced a \$200/month trading coach for me.
